EXPERIENCE

Roberts Environmental Center – Claremont, CA

September 2018 - Present

Research Analyst

- Researching corporate environmental non-compliance in California
- Constructing a web application to provide an objective solar panel calculator service with React/Redux
- Built a website for the US Environmental Economics Advisory Committee (E-EEAC) with Flask

Claremont Consulting Group – Claremont, CA

September 2018 - Present

Analyst

- Worked as a consultant with Montiel, a woman's athletic fashion company with over 200k followers across their social media platforms
- Conducted a market entry analysis for Montiel's upcoming dress line
- Consulted for Zoomforth, a company that has built microsites for AT&T, Honeywell, and Eventbrite
- Researched CRM and web analytics integrations for Zoomforth
- Advised by Boston Consulting Group consultants throughout the project with regular one-on-one sessions
- Created website for the club with Wix

MoneyLion – Kuala Lumpur, Malaysia

June - August 2018 & 2019

Software Engineer Intern

- Worked with Typescript and React Native to build the mobile app – consisting of all services offered by MoneyLion, a startup that uses machine learning to programmatically underwrite loans at affordable rates
- Fixed over 20 bugs cumulatively over both summers
- Built onboarding flows for users to register for an account and to obtain a debit card, a total of 8 new screens
- Developed a pin input component used in over 10 screens in the app allowing for different pin entry combinations
- Implemented a new animated progress bar component to be used and shared by various flows in the app
- Added new push to debit flow as well as refactored the logic for how users add and save a card
- Cut down on 10% of app size by writing a script to optimize and move images from the JS bundle to native

Leadership in the Business World – Philadelphia, PA

June 2017 - July 2017

Participant, Marketing Head

- Selected for competitive 4-week crash course in business fundamentals taught by Wharton School professors
- Formed and presented 10-page business plan to Wharton School professors, Philadelphia VCs and entrepreneurs
